

Benefits of *AquaLyte* Coral Calcium Water Enhancer

Instant Portable Water Purifier

- 1) Raises pH in drinking water to an alkaline level which can raise alkalinity of blood. Effective with cooking water, sports drinks, fruit juices, alcoholic drinks, and all non-carbonated beverages
- 2) Turns drinking water into a powerful natural anti-oxidant, by lowering oxidation reduction potential (ORP).
- 3) Antibacterial: kills E-Coli and all gram negative bacteria.
- 4) Neutralizes chlorine in tap water, making drinking and cooking water healthier.
- 5) Adds essential “ionized” calcium and magnesium which are highly absorbable.
- 6) Breaks up water molecules for better assimilation into cell membranes, by lowering surface tension and Dyne measurement.
- 7) Replenishes vital trace minerals lost in water treatment and bottled water, especially distilled and reverse osmosis.
- 8) Improves the taste and quality of water and other beverages.
- 9) Helps strengthen bones and teeth by reducing body fluid acidity, as well as adding absorbable calcium, magnesium, and other synergistic trace minerals.
- 10) Very unique portable sachet you can put in your pocket or purse to treat drinking water and other beverages anywhere you go.
- 11) Makes measurable changes in the water beginning in just seconds.
- 12) Great for enhancing your pets water and tropical fish aquariums.
- 13) Used sachets can be added to the soil of potted plants.
- 14) Highest quality and effectiveness of any coral product on the market.
